UNDERSTATED LUXURY

The Aggarwal residence is a home that has its owners' stamp of style and personality - simple, warm and culture-infused. Let's take a walk in this splendid home that is designed by Delhi based design house Within!

“When we met our clients for the first time, what touched us was their simplicity, warmth and their love for our culture. Hence, we decided to create a home with these values as the underlying principles,” says Sonal

Tuli, Co-founder, Within.

Located in Gurugram, this 3,300 sqft apartment for a family of four showcases spaces full of love and beauty which are synonymous to Within’s design philosophy. Upon entering, a modern chest of drawers in ebony welcomes us, contrasting beautifully with antique Indian columns that add their charm.

The brightly lit formal living room has comfortable sitting around a masterpiece of a coffee table finished in beaten brass and white onyx. Hues of blue and pink contrast with the neutral setting, just like the antique art and sculpture contrasts with the modern lamps.

The magnificent dining chandelier in Murano glass sits atop the dining table handcrafted in semi-precious stones. A vibrant blue patina mirror adds a little quirk in this sublime setting while the brass lotuses lend a divine charm.

Moving into the family areas, we witness an exquisite lounging space next to the mandir. A large Pichvai has been used as the backdrop of this sacred corner along with large brass wall sconces as the ultimate style statement which truly light up this den. The cluster of tables with a very intricate and unique inlay, a signature piece from Within sits pretty as a focal piece.

Rich textures in wallpaper, fabrics, and rug are the highlights of the understated luxury in the master bedroom. While the daughters’ rooms are filled with unusual wallpapers and unconventional wall arts which are a treat to the eye.

Each corner has been designed with utmost perfection. The beauty, simplicity, and attention to detail leaves us in sheer wonderment!
